Message from the CEO

I am pleased to share our 2025 Transparency Report. The Report contains insightful information about our strategy, our performance, our corporate governance and our quality control systems for 2025.

At KPMG in Cyprus, transparency remains fundamental to how we operate, serve the public interest, and uphold trust in the profession. Throughout 2025, we have continued to strengthen our governance, enhance audit quality and reinforce our commitment to our Values.

During the year, we continued to strengthen how we work through clearer processes, stronger oversight and ongoing investment in our people and technology.

KPMG has been operating in Cyprus since 1948. Today, we employ an average of 730 professionals across six offices on the island.

Our Firm is part of KPMG International Limited, a global organisation of independent professional services firms providing Audit, Tax and Advisory services. KPMG operates in 138 countries and territories and has approximately 276,000 people working in member firms around the world.

KPMG in Cyprus is a leading professional services organisation, with gross revenues of €50.9m in FY25 (FY24: €48.7m), representing a growth of 4.4% over the year. Our contribution to government revenues, including income tax, special contribution for defence, PAYE, VAT, GHS and social insurance contributions amounted to €17.6m.

Despite ongoing geopolitical uncertainty, 2025 was a resilient year for the Cyprus economy. Growth was around 4%, one of the highest growth rates in the European Union, supported by continued momentum in services, investment activity and a relatively strong labour market.

For 2026, the crisis in the Middle East increases downside risks. The outlook will depend on how the situation evolves, with key transmission channels including tourism and connectivity with the region, energy and shipping related costs, and the effect of uncertainty on investment decisions and household confidence. While Cyprus has demonstrated resilience in recent years, a prolonged crisis could weigh on growth and slow the pace of expansion.

One of our key priorities in 2025 was ESG. As sustainability reporting and assurance expectations continue to rise, we strengthened our specialist skills through targeted learning and credentials in sustainability, so we can help organisations understand their obligations, report with confidence and build trust with stakeholders. We also continued to advance responsible practices within our own operations and through our community initiatives.

At the same time, we stepped up our adoption of technology and AI. By using digital tools, data analytics and cloud-based platforms in how we plan, deliver and review our work, we improved consistency and strengthened our quality controls. Just as importantly, we continued to train our people to use these tools responsibly and securely, with an ongoing focus on data protection and cybersecurity.

Our globally consistent, cloud-based audit platform (KPMG Clara) is an important enabler helping teams follow methodology consistently, document work clearly and support robust review.

We continued working closely with KPMG International and the wider KPMG network to share knowledge, strengthen our credentials and bring global experience to local clients but also to apply our expertise to the wider network of KPMG clients, enabling us at the same time to access bigger and more integrated markets.

In 2025, we established the KPMG Start-up and Innovation Lab to help young entrepreneurs turn ideas into sustainable businesses. The Lab brings together mentoring, practical training and access to KPMG specialists across Audit, Tax, Advisory, ESG and Technology. It also connects founders with a wider ecosystem, industry partners, accelerators, academia and the investment community, so that promising ventures can strengthen their business models, become investment-ready and scale responsibly.

Our people are central to our performance and to the trust we build with stakeholders. In 2025, we continued to invest in their development, wellbeing and day-to-day experience through learning opportunities, coaching and career support, and by fostering an inclusive environment where everyone feels respected and able to contribute. Through

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

our BeWell@KPMG programme, we strengthened our focus on wellbeing and promoted a workplace where our people can thrive. We are grateful to our people for their professionalism, dedication and teamwork throughout the year.

Our Corporate Social Responsibility approach focuses on creating meaningful and lasting impact through a combination of financial support, professional expertise and active employee involvement. Our initiatives span community support, education, wellbeing and environmental actions, with our people playing a central role in driving and delivering these efforts. A key example is our response to the Limassol wildfires through the "Standing Together" initiative, which evolved from immediate humanitarian aid into long-term recovery support for affected communities. Within this, our engagement with the community of Souni stands out, where we contributed not only to practical needs but also to restoring community spirit, supporting local families and children through targeted actions and volunteer-led initiatives. Through these efforts, we continue to reinforce our commitment to society, ensuring that our actions are both impactful and sustainable.

At the heart of everything we do are our Values, Integrity, Excellence, Courage, Together and For Better, which guide our decisions and how we serve our clients and communities.

In this context, we remain focused on our collective strategy and long-term vision: to be the most trusted and trustworthy professional services firm in Cyprus. We approach challenges with discipline and optimism, and we continue to invest so we can seize opportunities and deliver value for our clients, our people and society.

All our partners and staff are fully engaged in maintaining KPMG as the Clear Choice for our Clients, our People and Society as a whole.

Christos V. Vasiliou
CEO

Message from the Head of Audit

Building trust through Audit Quality and Innovation

In today's environment of accelerating technological change, heightened regulatory scrutiny and evolving stakeholder expectations, trust in financial reporting is more important than ever. At KPMG, our ambition to be a trusted and trustworthy professional services organization is grounded in doing the right thing and supporting confidence in financial reporting and the wider economy. Audit quality sits at the heart of that ambition and underpins the confidence placed in our work by regulators, lenders, investors, businesses and other stakeholders.

KPMG in Cyprus is fully aligned with the firm's global audit quality strategy and innovation agenda. This includes a continued focus on strengthening governance, accountability and consistency through a robust System of Quality Management, while at the same time leveraging innovation to support high quality, consistent audit execution. Global consistency, combined with informed local application, is critical to delivering audits that respond effectively to Cyprus-specific risks and regulatory expectations.

During 2025, we continued to enhance our quality management framework in line with global KPMG standards and regulatory developments. This included further embedding KPMG Clara, our global smart audit platform, into audit execution in Cyprus. Enhancements to Clara, including the responsible and controlled use of AI-enabled capabilities, support risk assessment, audit procedures and documentation, enabling our auditors to focus their professional judgement and scepticism on areas of higher risk and complexity. Alongside these developments, we strengthened our monitoring and remediation processes to ensure that findings from internal and external inspections are translated into sustainable improvements in audit quality.

While technology and innovation are important enablers, audit quality ultimately depends on our people. Their integrity, competence and ethical judgement remain fundamental to maintaining trust. We continue to invest in the development of our audit professionals, equipping them with the skills, training and support required to exercise sound professional judgement, challenge management appropriately and navigate increasingly complex technical, ethical and independence considerations. A strong culture of accountability and speaking up is essential to ensuring that quality is delivered consistently, not only in form but also in substance.

In Cyprus, we operate in a diverse economic environment that includes listed entities, regulated financial institutions, international groups and privately owned and family-run businesses. Regardless of size, ownership structure or sector, high quality audits play a critical role in promoting transparency, financial discipline and informed decision making across the economy. Our commitment to audit quality therefore extends beyond technical compliance to a broader responsibility to the business environment in which we operate.

As we look ahead, we remain focused on continuously raising the bar. Audit quality is not static; it requires ongoing investment, reflection and the willingness to challenge ourselves and others as the profession evolves. We will continue to strengthen our system of quality management, invest in our people and technology, and engage constructively with regulators and stakeholders to sustain trust in our work.

I would like to thank our audit professionals for their dedication and professionalism, and our clients and stakeholders for the trust they place in us. We remain committed to earning that trust every day.

Sylvia A. Loizides
Head of Audit
30 April 2026

Audit quality

Audit quality is fundamental to maintaining public trust and is the key measure on which our professional reputation stands.

We define “audit quality” as the outcome when audits are executed consistently, in line with the requirements and intent of applicable professional standards, within a strong system of quality management.

All of our related activities are undertaken in an environment of the utmost level of objectivity, independence, ethics and integrity.

01 A system of quality management as the foundation of quality

Consistent and strong controls within our firm's system of quality management (SoQM) help reduce quality issues, drive operational efficiencies, and enhance transparency and accountability. We are committed to continually strengthening the consistency and robustness of our SoQM.

Across the global organisation, KPMG firms have strengthened the consistency and robustness of their system of quality management (SoQM) to meet the requirements of the International Standard on Quality Management (ISQM) 1, issued by the International Auditing and Assurance Standards Board (IAASB).

KPMG International's global approach to SoQM

Establishes consistent **policies, procedures and controls** designed to respond to SoQM risks, supporting KPMG firms' effective SoQM.

Provides KPMG firms with a globally consistent **iterative risk assessment framework** that they have agreed to use in identifying incremental KPMG firm specific quality objectives, risks, and controls.

Supports KPMG firms with **guidance, tools, and training** to drive consistent and effective firm SoQM operation and annual evaluation.

Includes **monitoring activities** over KPMG firms' SoQM to drive global consistency.

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

KPMG's Global Quality

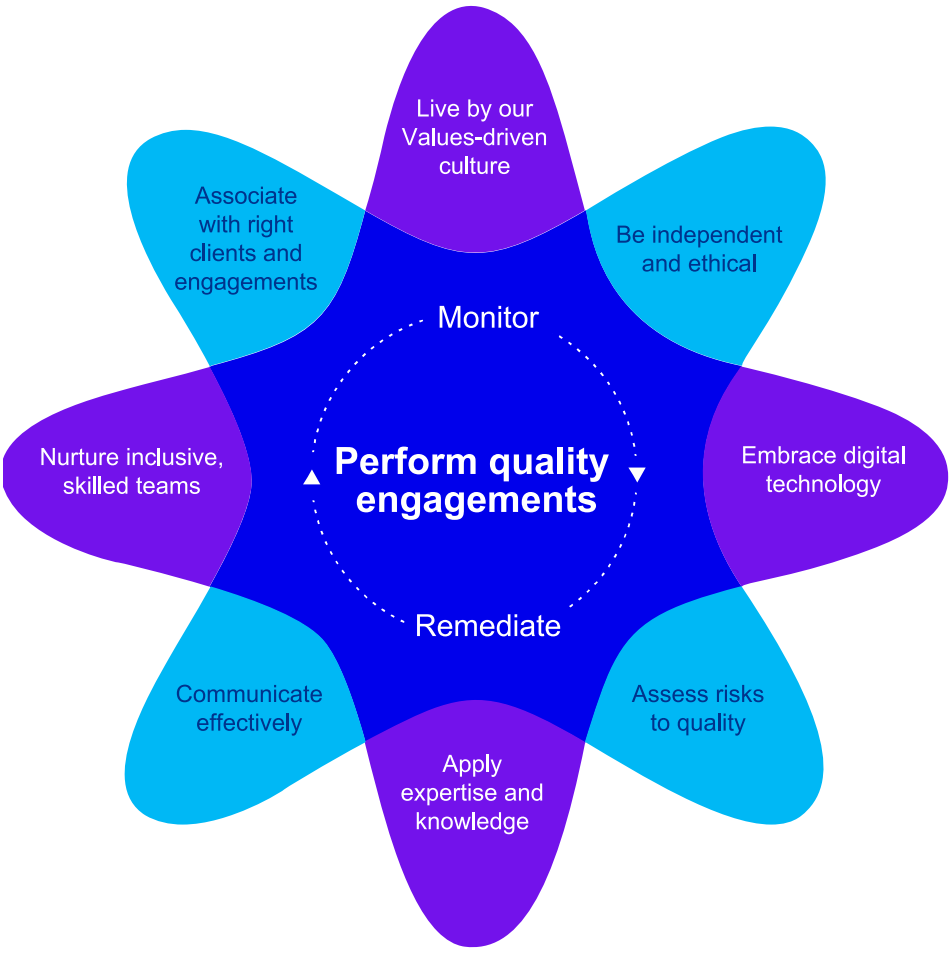
The globally consistent approach to SoQM is used by all KPMG firms across the global organization to drive the consistency, robustness and accountability of responses to risks within KPMG firms' processes.

KPMG Global Quality Framework

To provide more transparency on what drives KPMG audit and assurance quality, this report is structured around the KPMG Global Quality Framework. For KPMG, the Global Quality Framework outlines how we deliver quality and how every KPMG professional contributes to its delivery. The drivers outlined in the Global Quality Framework align with the 10 components of KPMG firms' SoQM and ISQM 1.

At the center of the framework is the performance of high-quality engagements, supported by ongoing monitoring and remediation. Driving continual improvement of KPMG firms' SoQM, integrated monitoring and remediation programs help enable firms to identify deficiencies, perform root cause analyses, and implement targeted remediation plans, both at the engagement level and across the broader SoQM.

The following 10 sections of the Transparency Report describe how we operate each driver in the Global Quality Framework, aligned with the SoQM components. Combined with our firm's SoQM Statement of Effectiveness, this Transparency Report summarizes how our SoQM supports the consistent performance of quality engagements. This report may also be useful for stakeholders interested in KPMG firms' Tax and Advisory services, as certain aspects of our firm's SoQM are cross-functional and apply equally as the foundation of quality for all services offered.



©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

02 Live by our Values-driven culture

It's not just what we do at KPMG that matters, we also pay attention to how we do it. Our Values are our core beliefs, guiding and unifying our actions and behaviours. Shared across all personnel, they are the foundation of our unique culture.

2.1 Foster the right culture, starting with tone at the top

2.1.1 Tone at the top

Our firm's leadership, working with regional and KPMG International leadership, plays a critical role in establishing our commitment to quality and the highest standards of professional excellence and ethics. **A culture based on integrity, accountability, quality, objectivity, independence and ethics is essential in an organization that carries out audit, assurance and other professional services on which stakeholders rely.**

Clear Values and a strong Code of Conduct

At KPMG, our Values lie at the heart of the way we do things. To do the right thing, the right way, at the right time. They form the foundation of a resilient and ethical culture ready to meet challenge with integrity, so we do not lose sight of our principal responsibility to serve the public interest.

They form the foundation of a resilient and ethical culture ready to meet challenge with integrity, so we do not lose sight of our principal responsibility to serve the public interest. of professional behaviour in everything we do. Ethics and integrity are core to who we are and within our Global Code of Conduct, (the Code), we outline the responsibilities all KPMG people have to each other, our clients and the public. It shows how our Values and Purpose inspire our greatest aspirations and guide our behaviours and actions. It defines what it means to work at and be part of the KPMG organisation, as well as our individual and collective responsibilities.

Everyone at KPMG can expect to be held accountable for their behaviour consistent with the Code and is required to confirm their compliance with it. Individuals are strongly encouraged to speak up if they see something that makes them uncomfortable or that is not in compliance with the Code or our Values. Everyone at KPMG is required to report any activity that could potentially be illegal or in violation of our Values, KPMG policies, professional standards and applicable laws or regulations.

To safeguard this principle of holding each other accountable, each KPMG firm has agreed to establish, communicate and maintain clearly defined channels to allow KPMG personnel and third parties to make inquiries about, raise concerns in relation to, provide feedback on and notify reportable matters, without fear of reprisal, in accordance with applicable law or regulation.

The KPMG International hotline is a mechanism for KPMG personnel, clients and other third parties to confidentially report concerns they have relating to KPMG International activities of KPMG firms or KPMG personnel. KPMG International considers how to respond to each report received through the hotline and where necessary, investigates and takes appropriate action.

All KPMG firms and personnel are prohibited from retaliating against individuals who have the courage to speak up in good faith. Retaliation is a serious violation of the Code, and any person who takes retaliatory action will be subject to their firm's disciplinary policy.

In addition to the processes outlined above, the Global People Survey provides our leadership and KPMG International leadership with key insights into how KPMG Values are being lived. It also provides valuable information on the attitudes of employees and partners regarding quality, leadership and tone at the top.

KPMG's Global Values Week – Building a values-driven firm of the future

In May of 2025, countries and territories in the KPMG global organization came together to celebrate Our Values during a week-long series of events. Through these activities, stories and conversations throughout Global Values Week, our people engaged in dialogue around our five Values and the role they play in our everyday work, with a focus on strengthening trust through ethical behavior. This organization-wide celebration was supported by a Values Immersion initiative in our firm that included leader-led group sessions focused on living our Values under pressure.

2.1.2 The KPMG multidisciplinary model

The KPMG global organization is at its strongest when its over 276,000 people across 138 countries and territories, aligned behind a common set of values, are working together to provide quality services to some of the most important organizations in the world, from the public sector to finance to

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

healthcare. Regardless of the sector or industry they operate in, KPMG's people leverage multidisciplinary knowledge and experience from across the organization to deliver audit and assurance, tax and consulting services to clients and stakeholders, earning their trust by meeting our commitment to deliver professional excellence. We firmly believe that our multidisciplinary model is the best way to serve clients and is essential to delivering high quality.

2.2 Clearly articulated strategy focused on quality, consistency, trust and growth

2.2.1 Our business

Our Firm is a professional services Firm that delivers Audit and Assurance, Tax and Advisory services. We operate out of six offices across Cyprus and the average number of people in 2025 was 730 (2024: 785).

Our audit and assurance services in Cyprus are delivered through KPMG Limited. Full details of the services we offer can be found on our website www.kpmg.com.cy

2.2.2 Our strategy

Our strategy is set by our Executive Committee and demonstrates a commitment to quality and trust. Our focus is to invest significantly in priorities that form part of a global strategy execution.

2.3 Defined accountabilities, roles and responsibilities related to quality and risk management

2.3.1 Leadership responsibilities for quality and risk management

Our leadership team is committed to building a culture based on integrity, quality, objectivity, independence and ethics, demonstrated through their actions.

Our firm has agreed to seek input from the chair of the relevant Global Steering Group or their delegee on the performance of certain leaders within the firm whose role most closely aligns with the activities of the Global Steering Group. Input is sought as part of the annual performance process and is based on an assessment of the leader's performance, which includes matters of public interest, quality and risk management activities.

The following individuals have leadership responsibilities for quality and risk management in our firm.

CEO

In accordance with the principles in ISQM 1, our CEO, Christos V. Vasiliou is the leader who has ultimate responsibility for our SoQM.

Details of some of the measures he and the rest of the Executive Committee have taken to ensure that a culture of quality prevails within our firm are set out in section 1. Our system of quality management is foundational for audit quality.

Risk Management Partner

Our firm's Risk Management Partner (RMP) is responsible for the firm's direction and execution of risk, compliance, and quality. The RMP is a member of KPMG Limited's Executive Committee and has a direct reporting line to the CEO. The RMP consults, as appropriate, with the CEO, the Regional Risk Management Partner, Global Quality & Risk Management resources, and the general counsel or external counsel.

The fact that the role is a position held by the Executive Committee, and seniority of the reporting lines, underlines the importance that the firm places on risk and quality issues.

Ethics and Independence Partner

Our firm's Ethics and Independence Partner (EIP) has primary responsibility for the direction and execution of ethics and independence policies and procedures in our firm and reports on ethics and independence issues to the RMP.

The Audit, Tax and Advisory functions – Function Heads

The three heads of the client service functions (Audit, Tax and Advisory) are accountable to the CEO for the quality of service delivered in their respective functions. They are responsible for the execution of the risk management and quality management procedures for their specific functions within the framework set by the Risk Management Partner. These procedures make it clear that, at the engagement-level, risk management and quality management is ultimately the responsibility of all professionals in the firm.

Our Head of Audit is responsible for the effective management and control of the Audit Function. This includes:

- Setting a strong tone and culture supporting audit quality through communication, engagement support and commitment to the highest standards of professional excellence, including professional scepticism, objectivity, and ethics and integrity;
- Developing and implementing an audit that is aligned with the firm's quality requirements;
- Working with the RMP to monitor and address quality and risk matters as they relate to the Audit practice.

Audit Leadership Team

The Audit Leadership Team has regular discussions to agree actions about current and emerging audit quality issues

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

arising from external and internal quality review processes, queries being raised by engagement teams, our SoQM evaluation, root cause analysis procedures and other quality matters identified from a variety of sources.

More complex issues (which might require amendments to KPMG's global audit methodology or audit tools) are raised with KPMG International Global Audit groups for consideration and potential development of solutions by the KPMG Global Solutions Group (KGSG), Global Audit Methodology Group (GAMG) and the International Standards Group (ISG). For more information about the KGSG, the GAMG and the ISG refer to section 8.1.2.

2.4 Promote robust governance structures

2.4.1 Our legal and governance structure

KPMG Limited is a private company limited by shares registered in Cyprus under registration number HE 132822 with its registered office at 14 Esperidon street, 1087, Nicosia, Cyprus. It is ultimately owned by its partners who are also Board Members in the company.

The related entities of KPMG Cyprus as at 31 December 2025 are:

Company name	Principal Activity
KPMG Limited	Professional Services
KPMG Properties Limited	Holding of property
KPMG Specialized Services Limited	Professional Services

Note: On 17 December 2025, KPMG MLS Services Ltd and KPMG Investments Ltd which were related entities of KPMG Cyprus have been disposed.

Theodorides, Georgiou, Iacovou & Co LLC

Theodorides, Georgiou, Iacovou & Co LLC is a Cyprus-based law firm and a member of the KPMG Legal network, operating under the KPMG Law brand. It is an independently owned and managed private limited liability company registered in Cyprus, regulated by the Cyprus Bar Association.

The Board

The Chairman chairs the Board ensuring that the Board members receive accurate, timely and clear information and ensuring effective communication and relationships with the members at large. The current chairman Michael Antoniades and CEO Christos Vasiliou were appointed on 1 January 2022 following an election campaign and confidential vote of the members.

The Board consists of 44 members, including the Chairman, the CEO and 42 additional members. The constitution of the Board is as determined by the KPMG Partnership Agreement.

The Executive Committee deals with key aspects of governance and reports to the Board. Details about the role and responsibilities and composition of the Executive Committee are set out below.

The Executive Committee

The Executive Committee is responsible for management of the day-to-day activities of the firm, recommending policy to the Board and developing the business plan within the overall strategy. It deals with operational matters affecting the firm including monitoring operating and financial performance, budgets, new business proposals, marketing, technology development, recruitment and retention and general remuneration, prioritization and allocation of resources and investment and managing the firm's risk profile.

The Executive Committee members are all partners in our firm.

The members of the Executive Committee during 2025 were as follows:

- Christos Vasiliou (CEO),
- Michael Antoniades (Chairman),
- Sylvia Loizides (Head of Audit),
- George Markides (Head of Tax),
- Marios Lazarou (Head of Advisory)
- Constantinos Kallis (Head of Quality & Risk Management),
- Michael Halios,
- Panayiotis Peleties,
- Maria Papacosta,
- Christoforos Anayiotos,
- Paris Elia,
- Costas Markides.

Full details of the Executive Committee for KPMG Limited are set out in Appendix 2.

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

03 Apply expertise and knowledge

We are committed to continuing to build on our technical expertise and knowledge recognizing its fundamental role in delivering quality services.

3.1 Methodology aligned with professional standards, laws and regulations

3.1.1 Consistent audit and assurance methodology and tools

We use KPMG International's audit and assurance methodologies, tools and guidance to drive a consistent approach to planning, performing and documenting audit and assurance procedures. Key elements include:

- Meeting applicable standards, including standards issued by the International Auditing and Assurance Standards Board (IAASB), the Public Company Accounting Oversight Board (PCAOB) and the American Institute of CPAs (AICPA);
- Identifying risks of material misstatements and designing and performing procedures to respond to these risks;
- Usage by our audit and assurance professionals to drive consistent interpretation on the application of the applicable standards.

Our audit and assurance methodologies emphasize applying appropriate professional scepticism in the execution of procedures and drive compliance with relevant ethical requirements, including independence. The methodologies evolve to reflect new and revised audit standards and requirements as well as to keep pace with innovative and technological advances that drive quality and efficiency.

3.2 Technology-enabled standardized methodology and guidance

KPMG is redefining the audit and assurance process through the use of leading technology, including AI, to facilitate risk-based and data-informed engagements. This digital strategy is supported by KPMG Clara, a scalable and user-friendly cloud-based platform that facilitates consistent execution across KPMG firms worldwide. KPMG Clara delivers KPMG's audit and assurance standardized methodologies through data-driven workflows that adhere to relevant audit and assurance standards, and assist our engagement teams in meeting the ever-changing landscape of corporate reporting and related audit and assurance requirements.

3.2.1 Driving consistency and quality through the KPMG Delivery Network

The KPMG Delivery Network (KDN) is a network of global delivery centers offering additional resources and specialist capacity and capability to some KPMG firms. Expanded in 2025 to increase capacity, KDN leverages technology in its delivery of consistent and standardized procedures and solutions to support some KPMG firms in their audit and assurance engagements.

3.3 Deep technical expertise and knowledge

3.3.1 Access to specialists

Specialist experience is an increasingly important part of modern audit and assurance engagements and is a key feature of our multidisciplinary model. Our engagement teams have access to a network of KPMG specialists to consult – either within their firm or in other KPMG firms. These specialists receive the training they need to help ensure they have the competencies, capabilities and objectivity to appropriately fulfil their role on our audit and assurance engagements.

The need for specialists to be assigned to an engagement in areas such as information, technology, tax, treasury, actuarial, forensic, valuations and various sustainability topics is considered as part of the engagement acceptance and continuance process, as well as during the planning and conduct of the engagement.

3.3.2 Our commitment to audit and assurance quality by responding to significant external events and conditions

Significant external events and conditions, such as the impacts arising from geopolitical shifts, natural disasters, climate effects and inflationary pressures; may give rise to business risks that can have significant implications for financial statements. These potential financial statement implications may include increased complexity, subjectivity and uncertainty when making accounting estimates and key judgments, such as asset impairments, asset valuations and management's going concern assessment. Guidance is available to assist engagement teams in our firm to respond to the potential impacts arising from these significant external events and conditions.

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

We have access to an online financial reporting resource center maintained on behalf of KPMG that highlights the potential financial statement implications of matters that may arise from significant external events and conditions, as well as an audit quality toolkit that addresses the potential audit and reporting implications. This guidance is updated as new significant accounting, auditing and reporting issues emerge.

3.3.3. Licensing and requirements for IFRS® Accounting Standards and US GAAP engagements

Licensing

All KPMG professionals in our firm are required to comply with applicable professional license rules and satisfy the Continuing Professional Development requirements in the jurisdiction where they practice. KPMG Limited policies and procedures are designed to facilitate compliance with license requirements. We are responsible for ensuring that audit professionals working on engagements have appropriate audit, accounting and industry knowledge, and experience in the local predominant financial reporting framework – IFRS.

Requirements – IFRS® Accounting Standards and US GAAP engagements

In addition, KPMG International has specific requirements for engagement partners, managers and Engagement Quality Control (EQC) reviewers working on IFRS Accounting Standards engagements in countries where IFRS Accounting Standards are not the predominant financial reporting framework.

Similar policies apply to engagements performed outside the US to report on financial statements or financial information prepared in accordance with US GAAP and/or audited in accordance with US auditing standards, including reporting on the effectiveness of the entity's internal control over financial reporting (ICOFR).

These provide that at a minimum, all engagement partners, managers and, if appointed, the EQC reviewers (and for engagements conducted in accordance with US GAAP and/or US auditing standards engagements, the engagement partner, engagement manager, engagement in-charge and, if appointed, the EQC reviewers assigned to the engagement have completed relevant training and that the engagement team, collectively, has sufficient experience to perform the engagement or has implemented appropriate safeguards to address any shortfalls.

3.3.4 ESG Assurance quality

KPMG is committed to fulfilling our public interest role in providing assurance that supports investor confidence and stakeholder trust.

In 2025, we continued to enhance its ESG assurance capabilities to meet evolving market developments, including the completion of the first wave of Corporate Sustainability Reporting Directive (CSRD) assurance engagements.

Key developments included:

- **Updated methodology** suitable for providing assurance on all sustainability reporting standards, including Corporate Sustainability Reporting Directive (CSRD), European Sustainability Reporting Standards (ESRS) and EU Taxonomy disclosure requirements.
- **Expanded training programs for our engagement teams** focused on the latest ISSB and ESRS standards, integrated into the KPMG Clara workflow to help ensure consistency and quality.
- **Strengthened global expertise** through investments in ESG talent and increased access to subject matter professionals across the KPMG organization.
- **Shared insights from the ESG Assurance Maturity Index 2025**, based on a survey of 1,320 senior executives and board members with ESG reporting and assurance knowledge. The findings emphasized the importance of readiness, transparency, and continuous improvement.

3.4 Policies on applicable requirements, standards and laws

At our firm, all personnel are expected to adhere to KPMG International and our firm's policies and procedures, including independence policies, and are provided with a range of tools and guidance to support them. Our policies and procedures for audit and assurance engagements incorporate the relevant requirements of accounting, auditing, assurance, ethical, quality and risk management standards that are consistent with ISQM 1, and other relevant laws and regulations.

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

04 Embrace digital technology

At KPMG, our mission is clear: to lead boldly, move fast, and act responsibly as we are anticipating the technologies that will shape our near future and are driving an ambitious innovation agenda. We continue to transform the audit and assurance experience for our professionals and clients. Leading technologies used across the KPMG global organization are enhancing audit quality by increasing our ability to identify and respond to the issues that matter.

4.1 KPMG Clara

KPMG's commitment to continuously evolving quality drives our investment in technology and innovation. In 2025, AI integration into KPMG Clara, our global smart audit and assurance platform, was expanded and accelerated to help our auditors respond more effectively to risks and deliver deeper insights.

KPMG Clara serves as the cloud-based digital foundation for globally consistent, high-quality audits that leverage the latest technologies and innovations, such as AI and other emerging technologies.

4.2 Intelligent, standards-driven audit and assurance workflows

As a scalable, intuitive cloud-based platform, KPMG Clara is driving globally consistent execution across all KPMG firms. It enables delivery of KPMG audit and assurance methodologies, through data-enabled workflows, which are aligned with the applicable standards, providing an empowered and seamless experience to auditors.

4.3 AI, data and evolving technologies

AI in the audit now and in the future

Building trust in the capital markets is central to KPMG's public interest role. In 2025, the use of AI within KPMG Clara was expanded to further enhance quality, consistency and responsiveness as part of our forward-thinking, digital-first audit and assurance vision.

We are continuing the deployment of generative AI and AI agents, which perform audit tasks in concert with human review. AI agents can now assist audit and assurance teams by reviewing engagement documentation, flagging potential

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

fraud risks, and designing and performing substantive testing procedures aligned with KPMG's methodology. Additionally, through transaction scoring, KPMG's auditors are able to leverage advanced automated algorithms to analyze and risk-score complete populations of transactions (rather than sample), identifying outliers and areas requiring further investigation. These enhancements enable over 95,000 auditors globally to focus on high-risk areas, exercise professional judgement and skepticism where it matters most, and strengthen audit quality.

All AI capabilities within KPMG Clara are developed under KPMG's **Trusted AI framework**, ensuring a human-in-the-loop approach that helps safeguard quality, data integrity, accuracy, reliability, security and ethical standards.

These capabilities are integral to our vision of a transformed AI-first, human-centric audit that delivers deeper insights and reinforces trust in the integrity of financial and non-financial information.

Looking ahead, we remain committed to responsibly deploying emerging technologies to support our professionals, enhance audit quality, and meet the evolving needs of the capital markets.

4.3.1 Client confidentiality, information security, and data privacy

The importance of maintaining client confidentiality is emphasized through a variety of mechanisms, including the KPMG Global Code of Conduct.

We have policies on information security, confidentiality, personal information and data privacy. We have a document retention policy concerning the retention period for audit documentation and other records relevant to an engagement in accordance with applicable laws, regulations, and professional standards.

KPMG provides training on confidentiality, information protection and data privacy requirements to all KPMG personnel annually.

- Data-driven & AI-enabled audit workflows
- Audit & Assurance including ESG
- Global, risk-based methodology

- Human-guided agentic AI as part of risk assessment
- Exception-based audit via automated scoring of complete transaction populations
- AI-enabled knowledge search

- Globally consistent planning & execution
- Enhanced two-way communication
- Tailored scoping

- Secure, transparent, & centralized interaction with the audit team
- Real-time alerts & tracking
- Access to insights

05 Nurture inclusive, skilled teams

Our people make the real difference and are instrumental in shaping the future of audit and assurance at KPMG. We put quality and integrity at the core of our practice. Our engagement teams have diverse skills and capabilities to address complex problems.

5.1 Recruit appropriately qualified individuals who bring diverse skills, perspectives, and experiences.

One of the key drivers of quality is ensuring that KPMG professionals have the appropriate skills and experience, motivation and purpose to deliver high-quality audit and assurance services. This requires the right recruitment, development, reward, promotion, retention and assignment of professionals.

5.1.1 Recruitment

We have invested in understanding how we can attract the talent we need now and in the future across our firm.

Our recruitment strategy is focused on drawing entry-level talent from a broad talent base, including working with established universities, colleges and business schools, but also working with secondary schools, helping build relationships with a younger, inclusive talent pool at an early age. We also recruit significant numbers at an experienced hire and partner level.

All candidates apply through our online platform for the position of their interest. Our selection process may include application screening, game-based assessment tests and behaviour-based interviews which allow a fair recruitment process, ensuring that selected candidates have the appropriate characteristics and skill set needed. These leverage fair and job-related criteria to ensure that candidates possess the appropriate skills and experience to perform competently, are suitable and best placed for their roles.

KPMG Cyprus recruited 143 new people in the year ended 31 December 2025, out of which 69 were new graduates (2024: 65 new graduates).

Where individuals are recruited for senior grades, a formal independence discussion is conducted with them by the Ethics and Independence Partner or a delegate. We do not accept any confidential information belonging to the candidate's former firm/employer.

5.1.2 Inclusion and access to equal opportunity

KPMG is committed to fostering a culture that welcomes everyone. This commitment has been core to our culture for many years and aligns with our Values and business strategy. We will continue to reflect the diverse communities we work within, while fostering a sense of belonging, and harnessing the collective power of our different perspectives and experiences to better serve our people, clients and society.

Learn more about the KPMG commitment to have an inclusive culture built on trust in the KPMG International: Our Impact Plan.

5.1.3 Health and well-being

In our firm, we are committed to protecting the health of our people, both physically and mentally, and providing an environment of empathy and support that allows our people to thrive and deliver high-quality work to our clients. Professional services can be a fast-paced and demanding environment, so we are creating a culture where people can be open about their well-being and reach out for support when they need it.

5.1.4 Reward and Promotion

Reward

We have compensation and promotion policies that are informed by market data and are clear, simple, fair and linked to the performance review process. This helps our partners and employees understand what is expected of them, including audit quality accountabilities outlined in role profiles and the audit quality goal issued globally by KPMG International. The connection between performance and reward is achieved by assessing performance across a peer group to inform reward decisions.

Reward decisions are based on consideration of both personal and firm performance.

The extent to which our people feel their performance has been reflected in their reward is measured through the annual Global People Survey, with action plans developed as required.

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

Promotion
The results of performance evaluations directly affect the promotion and remuneration of partners and employees and is some cases, their continued association with KPMG. During FY25, a total of 129 staff members progressed through promotions and role enhancements, reflecting our continued commitment to career development.

5.2 Assign an appropriately qualified team

A critical driver of quality management is the selection of the engagement team to deliver effective and high-quality audit and assurance services. At KPMG, we have policies, procedures and controls in place to assign engagement partners and other professionals to a specific engagement on the basis of their skill sets, relevant professional and industry experience, and the nature of the assignment or engagement.

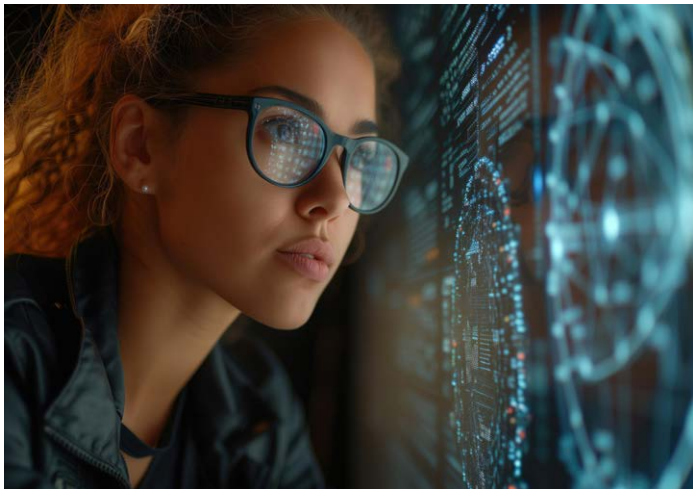
Function heads are responsible for the engagement partner assignment process. Key considerations include engagement partner experience and capacity – based on an annual engagement partner portfolio review – to perform the engagement considering the size, complexity and risk profile of the engagement and the type of support to be provided (i.e. the engagement team composition and specialist involvement).

Audit and assurance engagement partners are responsible for determining that sufficient and appropriate resources to perform the engagement are assigned or made available to the engagement team in a timely manner, taking into account the nature and circumstances of the audit or assurance engagement, KPMG policies and procedures, professional standards and applicable legal and regulatory requirements and any changes that may arise during the engagement. This may include involving specialists from our own firm, other KPMG firms or external experts.

Where the right resource is not available in our firm, we have access to a network of highly skilled KPMG professionals in other KPMG firms. At the same time, policies require all KPMG audit and assurance professionals to have the appropriate knowledge and experience for their assigned engagements.

When considering the appropriate competence and capabilities expected of the engagement team as a whole, the engagement partner's considerations may include the following:

- Understanding of, and practical experience with, audit and assurance engagements of a similar nature and complexity through appropriate training and participation;
- Understanding of professional standards and legal and regulatory requirements;
- Appropriate technical skills, including those related to relevant information technology and specialized areas of accounting, auditing or assurance;
- Knowledge of relevant industries in which the client operates;
- Ability to apply professional scepticism;
- Understanding of KPMG's quality control policies and procedures; Quality Performance Review (QPR) results and results of regulatory inspections.



5.3 Role profiles to drive quality

Driving a consistent approach to accountability for quality, we have a set of role profiles, issued by KPMG International, articulating the technical and behavioral competencies, and individual levels of accountability for contributing to audit quality and the SoQM. Reviewed annually to support the focus on continuous improvement, the role profiles offer KPMG personnel involved in audit delivery a clear articulation of their role and responsibilities. To connect the role profiles to goal setting, a mandatory audit quality goal is in place for those covered by the role profiles.

5.4 Investing in AI and data-centric skills

The KPMG organisation is strategically investing in prospective talent by collaborating with leading learning institutions, while investing in building a future-enabled workforce equipped with the skills needed to thrive in a data-driven, AI-enabled audit environment.

In our firm, we are recruiting and training professionals who specialize in software, cloud capabilities and AI and who can bring leading technology capabilities to the smart audit and assurance platform that we use. We provide training on a wide range of technologies to help ensure that field professionals not only meet the highest professional standards but are also educated in new technology. With this approach we are bringing together the right people with the right skills and the right technology to perform exceptional audits.

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

5.5 Focus learning and development on technical expertise, professional acumen, and leadership skills

5.5.1 Commitment to technical excellence and quality service delivery

All our professionals are provided with the technical training and support they need to perform their roles. This includes access to internal specialists and the professional practice department for consultation.

5.5.2 Lifetime learning strategy

In our firm, we are committed to developing a culture of continuous learning in line with our desire to provide access to learning for a lifetime — where KPMG partners and employees can continually enhance their competencies and skills through functional, ethical and accelerated learning. With a focus on enabling excellence, our continuous learning culture helps our people make the difference for both clients and themselves.

Formal training

Rapid advances in technology have made education and reskilling more important than ever. Providing our people with opportunities to learn and develop their careers is a key pillar of KPMG's Global People strategy.

Annual training priorities for development and delivery are identified by the Audit Learning and Development groups at global, regional and, where applicable, KPMG firm level.

Minimum learning requirements for audit and assurance professionals across the KPMG organization are established annually. Training is delivered using a blend of learning approaches and performance support.

Ongoing mentoring and on-the-job coaching

Learning is not confined to a single approach — rich learning experiences are available when needed through coaching and just-in-time learning and aligned with job-specific role profiles and learning paths.

Mentoring and on-the-job experience play key roles in developing the personal qualities important for successful careers in audit and assurance, including professional judgment, technical excellence and instinct.

We support a continuous learning environment where KPMG partners and employees contribute to building the team capacity, coaching other team members and sharing experiences.

5.6 Recognize quality

5.6.1 Personal development

Our approach to performance development, 'Open Performance Development', is built around the 'Everyone a Leader' performance principles, which are supplemented by the 'global audit technical core competencies' to provide a holistic view of expectations for those involved in audit and assurance engagements. The performance development approach includes:

- Audit quality role profiles (including audit quality accountabilities and responsibilities);
- A goal library (including a mandatory audit quality goal applicable to everyone covered by the audit role profiles and additional optional audit quality content);
- Standardized review forms (with provision for audit quality ratings).

Open Performance Development is linked to the KPMG Values and designed to articulate what is required for success — both individually and collectively. We know that by being clear and consistent about the behaviours and competencies we expect and rewarding those who demonstrate them, we will continue to drive a relentless focus on quality.

At the same time, we are driving a shift in our performance-driven culture, supported by and enacted through leading technology made available by KPMG International that allows us to embed audit quality into the assessment of performance and the decisions around reward, as well as drive consistency across the global organisation.

We consider quality and compliance metrics in the overall performance assessment, promotion and remuneration of partners and directors and managers. These evaluations are conducted by performance managers and partners who are able to assess performance.

KPMG's development approach as well as the on the-job training offered, create an environment where trainees can flourish. Every year, we have a number of trainees who complete their professional qualification exams and become qualified professionals, marking a significant milestone in their career (2025: 29 individuals). We also have trainees who demonstrate outstanding exam performance, achieving national and international recognition for their professional examination results. Specifically, this year, six trainees have achieved seven first-place awards nationally, while one trainee has attained a first-place award in Greece in the ACCA examinations. In addition, one trainee has ranked 1st among the Top ACCA Affiliates in Cyprus (December 2025), and three trainees demonstrated exceptional performance, achieving a mark of 90% or above, in the ACA examinations.

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

06 Associate with the right clients and engagements

Rigorous global client and engagement acceptance and continuance policies are vital to being able to provide high-quality professional services.

6.1 Global client and engagement acceptance and continuance policies

KPMG International's global client and engagement acceptance and continuance policies and processes are designed to help our firm and all other KPMG firms identify and evaluate potential risks prior to accepting or continuing a client relationship or performing a specific engagement.

Each KPMG firm evaluates whether to accept or continue a client relationship or perform a specific engagement. KPMG's client and engagement principles, ACCEPT, aid in the decision-making process as to which clients we accept and what work we will do for them. The ACCEPT principles are available to KPMG firms and can support them in identifying, assessing, and managing client and engagement-related risks. ACCEPT enables ethical decision-making and complements our global CARE ethical decision-making framework. Where client/engagement acceptance (or continuance) decisions pose significant risks, additional approvals are required.

Each letter of ACCEPT guides us to consider:

A **All stakeholder are important:**
Could the client (or entity) and/or engagement erode stakeholder trust?

C **Conflicts of interest and objectivity:**
Are there any objectivity or Independence concerns or any potential conflicts?

C **Client (or entity) considerations:**
Do we want to work with them?

E **Engagement considerations:**
Can we successfully deliver the product or service?

P **Public interest:**
Is the client (or entity) and/or engagement consistent with protecting the public interest?

T **Terms & commercial considerations:**
Can we comply with contractual obligations and manage financial outcomes?

6.2 Accept appropriate clients and engagements

6.2.1 Client evaluation

Our evaluation of a prospective client includes an assessment of the client's risk profile and background information on the client, its key management, directors and owners. If necessary, the evaluation includes obtaining and assessing additional information required to satisfy applicable legal / regulatory requirements.

6.2.2 Engagement evaluation

We consider a range of factors when we are evaluating each prospective engagement including:

- Potential independence and conflict of interest issues.
- Intended purpose and use of engagement deliverables.
- Public perception.
- Whether the services would be unethical or inconsistent with our Values.

In addition, the evaluation of an audit and assurance engagement includes an assessment of the competence of the client's financial management team and the skills, experience and capacity of KPMG professionals. Where we are providing audit services for the first time, additional independence evaluation procedures are performed, including a review of any non-audit services provided to the client and of other relevant business, financial and personal relationships.

Similar independence evaluations are performed when an existing audit and assurance client becomes a public interest entity or additional independence restrictions apply following a change in the circumstances of the client.

Any potential independence or conflict of interest issues are required to be documented and resolved prior to acceptance.

A prospective client or engagement will be declined if a potential independence or conflict issue cannot be resolved satisfactorily in accordance with professional standards and our policies, or if there are other quality and risk issues that cannot be appropriately mitigated.

6.2.3 Continuance process

We undertake regular re-evaluations of all audit and assurance clients to identify risks in relation to continuing our association and mitigating procedures that need to be put in place.

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

In addition, clients and engagements are required to be re-evaluated if there is an indication that there may be a change to the risk profile.

6.2.4 Withdrawal process

When we come to a preliminary conclusion that indicates we should withdraw from an engagement or client relationship, we must consult internally and identify any required legal, professional and regulatory responsibilities with respect to that relationship. We also consider further communication with those charged with governance and any other appropriate authority as required under its professional obligations.

6.3 Manage portfolio of clients

We have policies and procedures to enable our firm to monitor the workload and availability of engagement partners, managers and staff and personnel to provide sufficient time to complete their responsibilities.

Our firm's engagement partners are responsible for determining that members of the engagement team collectively have the appropriate competence and capabilities, including sufficient time, to successfully perform the engagement in accordance with professional standards and regulatory and legal requirements. See section Assigning an appropriately qualified team for more information.

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

07 Be independent and ethical

Auditor independence is a cornerstone of international professional standards and regulatory requirements.

7.1 Act with integrity and live our Values

We know that trust is earned by doing the right thing. We are committed to the highest standards of professional behaviour throughout our firm in everything we do. Ethics and integrity are core to who we are. Within our Global Code of Conduct me , we outline the responsibilities KPMG people have to each other, our clients and the public. It shows how our Values inspire our greatest aspirations and guide all of our behaviours and actions. At our firm, we provide annual training to all partners and employees on the Global Code of Conduct, anti-bribery and corruption, and compliance with laws, regulations and professional standards.

7.1.1 Driving an ethical culture

A culture based on integrity, accountability, quality, objectivity, independence and ethics is essential in a firm that carries out audit, assurance and other professional services on which stakeholders rely. Consistent foundational elements of ethical behavior at KPMG support an ethical culture and strengthen trust. Our firm has agreed to establish and maintain a foundation for ethical behavior, including monitoring training assessments and adopting and maintaining an ethical decision-making framework.

Source: KPMG International OIP

Our ethical decision-making framework, CARE (Consider, Assess, Respond, Evolve), is centered on building and reinforcing trust, and supports our Purpose, Values and Code of Conduct. A model shared across the organization, CARE helps our people to make ethical decisions, especially when faced with a challenging situation or ethical dilemma, and it also reminds them that they do not have to make these decisions alone.

7.2 Maintain objectivity, independence and ethical behavior

KPMG International's independence policies and procedures incorporate the IESBA Code of Ethics, covering areas such as firm and personal independence, firm financial relationships, employment relationships, partner rotation and approval of audit and non-audit services.

Our Ethics and Independence Partner (EIP) is responsible for communicating and implementing KPMG policies and procedures and ensuring that any additional local independence policies and procedures, including relevant controls, are established and effectively implemented.

Automated tools identify potential independence and conflict of interest issues and facilitate compliance with these requirements. KPMG firm compliance with independence requirements is part of the KPMG Quality & Compliance Evaluation (KQCE) program.

7.2.1 Personal financial independence

KPMG firms and KPMG personnel are required to be free from prohibited financial interests in, and prohibited financial relationships with, KPMG firm audit and assurance clients (by definition, 'audit client' includes its related entities or affiliates), their management, directors and, where required, significant owners. All KPMG partners — irrespective of their firm or function — are generally prohibited from owning securities of any audit client of any KPMG firm.

KPMG firms use a web-based independence compliance system to assist KPMG professionals in complying with personal independence investment policies. The system facilitates monitoring by identifying and reporting impermissible investments and other non-compliant activity (i.e. late reporting of an investment acquisition).

We monitor partner and manager compliance with this requirement as part of our program of independence compliance audits of professionals. KPMG International

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

provides guidance and required procedures relating to the audit and inspection by KPMG firms of personal compliance with KPMG independence policies. This includes sample criteria including the minimum number of professionals to be audited annually.

In 2025, 22 individuals, including partners and employees, were subject to these audits (this included approximately 27% of our partners).

7.2.2 Employment relationships

Any KPMG professional providing services to an audit or assurance client irrespective of function is required to notify the firm EIP if they intend to enter into employment negotiations with that client. For partners, this extends to any audit client of any KPMG firm that is a public interest entity. Specific prohibitions, and in some instances, cooling off periods apply to accepting certain roles at audit and assurance clients.

7.2.3 Firm financial independence

KPMG firms are also required to be free from prohibited interests in, and prohibited relationships with, audit clients, their management, directors and, where required, significant owners.

KPMG's independence compliance system records direct and material indirect investments in publicly traded entities and funds (or similar investment vehicles) as well as in non-publicly traded entities and funds. This includes investments held in associated pension and employee benefit plans.

KPMG firms' borrowing and capital financing relationships, as well as custodial, trust and brokerage accounts that hold member firm assets must also be recorded.

On an annual basis, we confirm compliance with independence requirements as part of the KQCE program.

7.2.4 Business relationships/suppliers

We have policies and procedures in place to ensure our business relationships with audit and assurance clients are maintained in accordance with the IESBA Code of Ethics and other applicable independence requirements, such as those promulgated by the SEC.

7.2.5 Business acquisitions, admissions and investments

Any acquisition of, or investment in, a business requires sufficient due diligence procedures to identify and address any potential independence and risk management issues prior to closing the transaction. Specific consultations with KPMG International are required to enable independence and other issues to be addressed when integrating the business into a KPMG firm and the wider global organisation.

7.2.6 Independence training and confirmations

All KPMG partners and client-facing professionals, as well as certain other individuals, are required to complete independence training upon joining KPMG and on an annual basis thereafter and must sign a confirmation of compliance annually.

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

7.2.7 Non-audit services

All KPMG firms have agreed, at a minimum, to comply with the IESBA Code of Ethics and applicable laws and regulations related to the scope of services that can be provided to audit clients.

KPMG's mandatory conflicts and independence checking system supports our compliance with independence requirements. Certain information on all prospective engagements, including detailed service descriptions, deliverables and estimated fees, are required to be entered into the system as part of the engagement acceptance process. When the engagement is for an audit client, an evaluation of potential independence threats and safeguards is also required to be included in the submission.

Lead audit engagement partners are required to maintain group structures for their public interest entity and certain other audit clients including their related entities/affiliates. They are also responsible for identifying and evaluating any independence threats that may arise from the provision of a proposed non-audit service and the safeguards available to address those threats.

KPMG firms are prohibited from evaluating or compensating audit partners on selling non-audit services to their audit clients.

7.2.8 Fee dependency

KPMG firms are required to monitor total fees from public interest entity audit clients and follow consultation, communication and disclosure requirements should such fees exceed established thresholds.

7.2.9 Avoiding conflicts of interest

All KPMG firms and personnel are responsible for identifying and managing conflicts of interest, which are circumstances or situations that may have, or may be perceived to have, an impact on a firm's and/or its partners' or employees' ability to be objective or otherwise act without bias.

KPMG firms use the mandatory conflicts and independence checking system for potential conflict identification so that these can be addressed in accordance with legal and professional requirements.

KPMG personnel and KPMG firms are prohibited from offering or accepting inducements, including gifts and hospitality to or from audit and assurance clients, unless the value is trivial and inconsequential.

7.2.10 Independence breaches

KPMG personnel are required to report an independence breach to our firm's EIP as soon as they become aware of it. Breaches of independence requirements of the IESBA Code of Ethics or other external independence requirements are required to be reported to those charged with governance

as soon as possible, except where alternative timing for less significant breaches has been agreed with those charged with governance.

We have a disciplinary policy in relation to breaches of independence policies, incorporating incremental sanctions reflecting the seriousness of any violations.

7.2.11 Partner and firm rotation

Partner rotation

Our partners are subject to periodic rotation of their responsibilities for audit clients. Requirements place limits on the number of cumulative years that partners in certain roles may provide audit services to a client, followed by a 'time-out' period during which time these partners are restricted in the roles they can perform.

Firm rotation

KPMG Limited is permitted to act as an auditor for PIE entities for a maximum period of 10 years and not to act as auditor for such clients for a 4-year period thereafter (referred to as the 'cooling off period'). KPMG Limited has processes in place to track and manage audit firm rotation. Additionally, for authorised credit institutions the maximum period is 9 years and not to act as auditors for such clients for a period of 4 years thereafter.

7.3 Have zero tolerance of bribery and corruption

We have zero tolerance of bribery and corruption.

Our people are required to take training covering compliance with laws, regulations and professional standards relating to anti-bribery and corruption, including the reporting of suspected or actual non-compliance.

Further information on KPMG International's anti-bribery and corruption policies can be found on the anti-bribery and corruption site

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

08 Perform quality engagements

How an audit is conducted is as important as the result. Everyone at KPMG is expected to demonstrate behaviours consistent with our Values and follow all policies and procedures in the performance of effective and efficient audits.

8.1 Consult when appropriate

8.1.1 Encouraging a culture of consultation

KPMG encourages a culture of consultation that supports engagement teams in KPMG firms throughout their decision-making processes and is a fundamental contributor to audit and assurance quality. In our firm, engagement teams are required to consult within their firm when difficult or contentious matters arise on an engagement.

To help with this, our firm has established protocols for consultation and documentation of significant matters, including procedures to facilitate resolution of differences of opinion on engagement issues. In addition, KPMG audit, assurance, reporting and risk management manuals also include specific consultation requirements on certain matters.

8.1.2 Technical consultation and global resources

Technical accounting, auditing and assurance support is available to all KPMG firms through a number of subject matter expert global teams.

Global Audit Methodology Group (GAMG): Develops the KPMG organisation's audit and assurance methodology based on the requirements of the applicable audit and assurance standards of the IAASB, PCAOB, and AICPA.

KPMG Global Solutions Group (KGSG): Develops and deploys global audit and assurance solutions, including new technology and automation innovations.

The GAMG and KGSG teams bring diverse experience and innovative ways of thinking to further evolve KPMG firms' audit and assurance capabilities.

More information about KPMG's global audit and assurance methodology and technology-based tools is included in the Embrace Digital Technology section of this report.

International Standards Group (ISG): Develops global guidance to promote consistency of interpretation and application of IFRS Accounting Standards, IFRS Sustainability Disclosure Standards and European Sustainability Reporting Standards by KPMG firms, and to promote a consistent response to emerging accounting and audit issues.

PCAOB Standards Group (PSG): Promotes consistency in the interpretation of PCAOB auditing standards in KPMG firms' audits of non-US SEC issuers and non-US components of SEC issuers, as defined by SEC regulations.

The PSG also provides input into the development of training for auditors who work on PCAOB audit engagements and, where practicable, facilitates delivery of such training.

Member firm professional practice resources: Provide consultation support on auditing, assurance and technical accounting matters to their audit professionals involving regional or global teams when required.

8.2 Critically assess audit evidence using professional judgment and scepticism

On all KPMG audits, we design and perform audit procedures whose nature, timing and extent are based on and responsive to the assessed risks. We consider all relevant audit evidence obtained during the course of the audit, including contradictory or inconsistent audit evidence.

Each team member needs to exercise professional judgement and maintain professional skepticism throughout the audit engagement. Professional skepticism involves a questioning mind and remaining alert to contradictory, or inconsistencies in, audit evidence. Professional judgment encompasses the need to be aware of and alert to biases that may pose threats to sound judgments.

8.3 Direct, coach, supervise and review

8.3.1 Embedding ongoing coaching, supervision and review

We promote a coaching culture as part of enabling our professionals to achieve their full potential. Coaching fundamentals are embedded in the audit training curriculum, and we support a continuous learning environment where KPMG partners and professionals contribute to building the capacity of the team, coaching other team members and sharing experiences while directing, supervising and reviewing their work.

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

8.3.2 Engagement quality control (EQC)

The EQC review is an important part of our approach to quality. We have agreed to appoint an EQC reviewer for each audit engagements, including any related review(s) of interim financial information, of all listed entities, non-listed entities with a high public profile, engagements that require an EQC review under applicable laws or regulations, and other engagements, including certain assurance engagements, as designated by our RMP or our Head of Audit.

An EQC review is an objective evaluation of the significant judgments made by the engagement team and its related conclusions, performed by the EQC reviewer, and completed on or before the date of the report. The EQC reviewer's evaluation of significant judgements includes an evaluation of the engagement team's assessment of significant risks, including fraud risks, the related responses and whether the related conclusions are appropriate. The EQC review is completed only after the EQC reviewer is satisfied that all significant matters they raised have been resolved.

8.4 Appropriately support and document conclusions

8.4.1 Reporting

Engagement partners form all opinions and conclusions for audit, assurance and review engagements based on the work performed and evidence obtained.

In preparing auditors' and assurance reports, engagement partners have access to reporting guidance and technical support through consultations with our Department of Professional Practice.

8.4.2 Engagement documentation

Our firm's documentation is completed and assembled in accordance with KPMG International policy and applicable auditing and assurance standards. We have implemented safeguards to protect the confidentiality and integrity of client and firm information, and we have reduced the time period permitted to assemble documentation.

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

9 Assess risks to quality

The quality of KPMG audit and assurance services rests on the foundational SoQM and our approach to ISQM 1 emphasizes consistency and robustness of controls within our processes.

9.1 Identifying risks to quality and implement effective responses

KPMG International performs an annual iterative risk assessment process (I-RAP) to determine the baseline expected quality objectives, quality risks, process risk points (responses to those risks, including controls) that all KPMG firms agree to implement and operate. In recognition that we are responsible for our SoQM being in compliance with ISQM 1, and any locally applicable standards or regulations. We also perform our own annual I-RAP, taking into account our firm's facts and circumstances in determining whether there are any incremental quality objectives, quality risks, process risk points or responses to those risks, including controls.

The consistent global approach:

- Sets the minimum controls to be implemented within all KPMG firms' SoQM processes in response to globally identified risks to achieving SoQM quality objectives.
- Defines the SoQM methodology used by KPMG firms in their annual SoQM evaluation to evaluate whether the SoQM controls are operating effectively in response to the related risks and in support of achieving the SoQM quality objectives.

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

10 Monitor and remediate

Integrated quality monitoring and compliance programs enable KPMG firms to identify quality deficiencies, to perform root cause analysis and develop, implement, and report remedial action plans, both in respect of individual audit engagements and the overall SoQM.

10.1 Rigorously monitor and measure quality

10.1.1 Commitment to continuous improvement

KPMG firms have committed to continually improving the quality, consistency and efficiency of their audits. The quality monitoring and compliance programs are globally consistent in their approach across all KPMG firms, including the nature and extent of testing and reporting. In our firm, we compare the results of our internal monitoring programs with the results of any external inspection programs and take appropriate action.

10.1.2 Internal monitoring and compliance programs

KPMG firms have agreed to use quality monitoring and compliance programs that are developed by KPMG International to identify quality issues, perform root cause analysis and develop remedial action plans, both for individual audits and for their overall SoQM.

The programs evaluate:

- Engagement performance in compliance with the applicable professional standards, applicable laws and regulations and key KPMG International policies and procedures.
- Our firm's compliance with KPMG International key policies and procedures and the relevance, adequacy and effective operation of key quality control policies and procedures.

The internal monitoring and compliance programs also contribute to the annual evaluation of our SoQM operating effectiveness. These programs include:

- Audit Quality Performance Review (QPR).
- KPMG Quality & Compliance Evaluation (KQCE).
- Global Quality & Compliance Review (GQCR).

Audit Quality Performance Review (QPRs) program

The Audit QPR program assesses engagement-level performance and identifies opportunities to improve engagement quality.

Risk-based approach

Each engagement partner in every KPMG firm is reviewed at least once in a four-year cycle (three years for engagement partners involved in PCAOB engagements). A risk-based approach is used to select engagements.

The Audit QPR Program is designed by Global Quality & Risk Management. We conduct the annual QPR program in accordance with KPMG International QPR instructions, which promote consistency across the KPMG organization. Reviews are overseen by an independent experienced lead reviewer from another KPMG firm. QPR results are reported to KPMG International.

Evaluations from Audit QPR

Across the global organisation, consistent criteria are used to determine engagement ratings and KPMG firm Audit practice evaluations.

Audit engagements selected for review are rated as 'Compliant', 'Compliant- Improvement Needed' or 'Not Compliant'.

As part of the 2025 AQR cycle, eight engagements were reviewed, resulting in two Compliant ratings, five Compliant Improvement Needed, and one Not Compliant rating.

KPMG Quality & Compliance Evaluation (KQCE) program

The KQCE program encompasses the testing and evaluation requirements of a KPMG firm's SoQM, which are necessary to provide a basis for each KPMG firm's conclusion as to the effectiveness of its SoQM under ISQM 1, and compliance with quality and risk management policies. KQCE program requirements are to be completed by all KPMG firms.

The annual KQCE program covers the period from 1 October to 30 September and helps support our conclusion on the operating effectiveness of our SoQM as of 30 September and compliance with quality and risk management policies.

Global Quality & Compliance Review (GQCR) program

The GQCR program is a KPMG International monitoring program. The objective of the GQCR program is to assess a firm's compliance with selected KPMG International policies, including those related to governance and SoQM.

Firms are selected for review using a risk-based approach, which considers a number of factors, including financial conditions, country risks, results of monitoring programs and people surveys, with each firm subject to a GQCR at least once in a four-year cycle.

The GQCR team comprises partners and managers who are independent of the firm subject to review.

Internal monitoring and compliance program reporting

Results from the monitoring and compliance programs are disseminated to our professionals through written

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

communications, internal training tools, and periodic meetings with leadership.

Issues identified are also emphasized in subsequent monitoring and compliance programs to gauge the extent of continuous improvement.

Lead audit engagement partners are notified of Audit QPR not compliant ratings if relevant to their respective cross-border engagements.

Remediation and monitoring

In our firm, we develop remedial action plans to respond to findings identified through our monitoring and compliance programs. Progress on action plans is monitored and results are reported, as appropriate, to regional and global leadership.

10.2 Obtain, evaluate and act on stakeholder feedback

10.2.1 Regulators

During the year, the Cyprus Public Audit Oversight Board (CyPAOB) finalised their Firm Wide Controls inspection which was initiated in the 4th quarter of 2024.

During the year, the Cyprus Public Audit Oversight Board (CyPAOB) concluded its firm-wide controls inspection, which commenced in the fourth quarter of 2024. The inspection focused on the firm's understanding and implementation of International Standards on Quality Management 1 and 2 (ISQM 1 and ISQM 2). CyPAOB issued a report setting out its findings and the agreed action plan.

Their Audit Quality Review (AQR) was also conducted during the year. The review was successfully concluded with an overall satisfactory result.

CyPAOB also conducted its Audit Quality Review (AQR) during the year. Two EU public-interest entity (EU PIE) engagements were reviewed and were assessed as Category 2A and Category 2B, respectively. CyPAOB's assessment categories are as follows: Category 1 (Satisfactory), Category 2A (Limited improvements required), Category 2B (Improvements required), Category 3 (Significant improvements required), and Category 4 (Significant deficiencies identified).

The most recent AQR performed by ICPAC in respect of non-EU PIE engagements took place in 2024 and was concluded successfully, with an overall satisfactory outcome.

KPMG Limited is committed in delivering high quality audits. We are considering each of the findings and recommendations identified from all inspections. Robust Root Cause Analysis takes place, as described in section 10.3, with the purpose of addressing areas requiring improvement. We are implementing actions to address deficiencies and strengthen policies and procedures as appropriate.

KPMG International has regular two-way communication with the International Forum of Independent Audit Regulators (IFIAR), principally through IFIAR's Global Audit Quality Working Group (GAQWG), to discuss thematic audit quality issues along with targeted strategies for improvement. We value the open, honest and transparent dialogue that IFIAR facilitates on global audit quality issues.

Every KPMG firm is expected to maintain professional and respectful relationships with applicable regulators, including proactively engaging, responding to questions in a timely manner and taking appropriate remedial actions.

10.2.2 Client feedback

Client feedback is also important. We proactively seek feedback from clients through in-person conversations and third-party surveys.

10.2.3 Monitoring of complaints

We have procedures in place for monitoring and addressing complaints received relating to the quality of our work. These procedures are detailed in our general terms of business.

10.2.4 Other assessment of audit quality. Policy for Second line of defence (2LoD) reviewers

Second line of defence (2LoD) reviewers support specific audit teams during the conduct of their work and navigate key audit areas of the audit. All 2LoD reviewers are high performing individuals. They coach teams to develop and robustly evidence risk assessment, audit approach and the execution of the key audit procedures. Their goal is to improve audit quality on these specific audits, before the audit opinion is issued, and more broadly by gathering data inputs for consideration as part of our quality risk assessment and continuous improvement initiatives. In addition, pre issuance reviews of clients' financial statements pre performed when required and in accordance with the local policy.

10.3 Perform root cause analysis and design and implement effective remedial actions

In our firm, our SoQM provides the foundation for consistent delivery of quality engagements. A key element of our firm's SoQM is the Root Cause Analysis (RCA) program that supports our firm to effectively remediate quality issues by enabling the issue identification and addressing of the underlying causes of these issues. Leveraging inputs from internal monitoring programs, external inspections and other relevant activities, we identify audit quality issues and undertake RCA corresponding to the nature and severity of the issues.

We continue to strengthen our RCA program, leveraging globally developed RCA methodology, training, guidance and tools from KPMG International.

We design and implement remedial actions that respond to the identified root causes of the audit quality issues and subsequently monitor the effectiveness of such actions. Our RCA projects, status of the projects and remedial actions are reported to KPMG International.

Our Head of Audit is responsible for audit quality, including supporting the effective remediation of audit quality issues. Our firm's RMP monitors the remediation plans' implementation and completion.

11 Communicate effectively

We recognize that another important contributor to upholding audit and assurance quality is to obtain and promptly act upon feedback from key stakeholders.

11.1 Provide insights, and maintain open and honest two-way communication

11.1.1 Communicate with those charged with governance

We stress the importance of keeping those charged with governance informed of issues arising throughout the audit through guidance and supporting resources. We achieve this through a combination of reports and presentations, attendance at audit committee or board meetings, and ongoing discussions with management and members of the audit committee.

The role of audit committees is key in supporting quality auditing by overseeing the relationship between company and auditor and challenging what auditors do and how they do it.

KPMG Cyprus Audit Committee Institute

In recognition of the demanding and important role that audit committees play for the capital markets and of the challenges that they face in meeting their responsibilities, the Audit Committee Institute (ACI) aims to help audit committee members enhance their commitment and ability to implement effective audit committee processes.

During 2025, the KPMG Cyprus ACI did not host any presentations or trainings but held various interactions with non executive directors and regulators, discussing the various developments in the world of corporate governance, in a variety of sectors of the economy.

Further details and insights on the ACI are available here.

Global Corporate Reporting Institute

The KPMG Global IFRS Institute provides information and resources to help board and audit committee members, executives, management, stakeholders and government representatives gain insight and access thought leadership about the evolving global financial and sustainability reporting frameworks.

11.2 Conduct and follow-up on the Global People Survey (GPS)

Only with engaged, talented people can we deliver audit and assurance engagements in line with our audit quality expectations from the foundation of an effective SoQM. As we strive to continually improve, our personnel are invited annually to participate in KPMG's Global People Survey (GPS) to share their perception on their experience of working at KPMG. Results can be analyzed by several factors, including functional or geographic area, grade and demographics to provide additional focus for action.

Through the GPS, our firm measures our people's engagement and gains additional insight about what drives engagement for KPMG people. The GPS includes specific audit quality questions for those individuals who participated in an audit, assurance, review or attestation engagement in the previous 12 months, giving us a particular data set for audit quality-related matters.

The survey also provides our leadership and KPMG International leadership with key insights into how KPMG Values are being lived. It also provides valuable information on the attitudes of employees and partners regarding quality, leadership and tone at the top.

We participate in the GPS, monitor results and take appropriate actions to communicate and respond to the findings of the survey. The results of the GPS, and the appropriate follow-up actions, are also aggregated for the entire global organization and are presented to the Global Board each year.

Audit-specific analysis of GPS results is also undertaken, with a particular focus on audit quality. Results and key themes are presented to the Global Audit Steering Group on an annual basis for discussion of appropriate remedial action, if needed. A global GPS action plan for audit is also communicated annually.

12 Financial information

The breakdown of the total revenue of KPMG for the year ended 31 December 2025 is outlined in the tables below. Revenue is reported on a gross basis and includes expenses billed to clients as well as revenue related to billings by other KPMG network member firms. Billings between the Cyprus KPMG network firms are eliminated from the revenues of the selling entity:

Revenue	2025 €' 000	2024 €' 000
Audit	27.877	26.720
Tax & Legal	10.223	10.023
Advisory	12.779	11.974
Total*	50.878	48.717

**Revenue includes revenues of all KPMG member firms in Cyprus, as presented in paragraph 2.4 on page 11.*

Total revenue related to all entities in Cyprus on a net basis, after net-off of expenses billed to clients and revenue related to billings by other KPMG network firms amounts to €45.9m (2024: €45.7m).

Revenue	2025 €' 000	2024 €' 000
Revenues from the statutory audit of annual and consolidated financial statements of public-interest entities and entities belonging to a group of undertakings whose parent undertaking is a public-interest entity	4.390	3.464
Revenues from the statutory audit of annual and consolidated financial statements of other entities	20.187	22.269
Revenues from permitted non-audit services to entities that are audited by the statutory auditor or the audit firm	7.113	6.709
Revenues from non-audit services to other entities	17.796	14.706
Total revenue related to KPMG Limited	49.485	47.148
Non-audit services provided (**) by other KPMG network entities in Cyprus: Theodorides, Georgiou, Iacovou & Co LLC	1.393	1.569
Total revenue related to all entities in Cyprus (on a gross basis)	50.878	48.717

***of which €207 thousand (2024: €257 thousand) for non-audit services provided to companies audited by KPMG Limited.*

Total turnover achieved by EU/EEA audit firms resulting from the statutory audit of annual and consolidated financial statements*
Aggregated revenues generated by KPMG firms from EU and EEA Member States resulting from the statutory audit of annual and consolidated financial statements were 2.7 billion euros during the fiscal year ended 30 September 2025. The EU/EEA aggregated statutory audit revenue figures are presented to the best extent currently calculable and translated at the average exchange rate prevailing in the 12 months ended 30 September 2025.

**The financial information set forth represents combined information of the separate KPMG member firms from EU and EEA Member States that perform professional services for clients. The information is combined here solely for presentation purposes. KPMG International performs no services for clients nor, concomitantly, generates any client revenue.*

13 Partner remuneration

Partners' profit share

Partners are remunerated out of the distributable profits of KPMG Limited (such profits being determined by the KPMG Limited Board). The final allocation of profits to partners is made by the Executive Committee after assessing each partner's contribution for the year. The KPMG Limited Board approves this process and oversees its application.

There are four elements to partner remuneration:

- Base component – A proportion of the KPMG Limited budgeted profits are allocated to members as base component; this is effectively member salary. The amount of base component reflects the role and seniority of each partner. In the year to 31 December 2025, the total base component was approximately 54% of the profits allocated to individual members (2024: 64%).
- Profit related performance component – Rewards performance in the year by each partner against individual objectives previously agreed and the overall profits of their part of KPMG Limited as a whole. Our policies for this variable element of partner remuneration take into account a number of factors including quality of work, excellence in client service, growth in revenue and profitability, leadership and living the KPMG Values. Audit partners are not permitted to have objectives related to, or receive any remuneration from, selling non-audit services to their audit clients. In addition, a part of their performance-related component is based on an assessment of their ability to deliver audit quality.
- Bonus payment – allocated based on exceptional performance in a year and considering a number of criteria.
- Financial penalty – deduction to reflect cases for deficient quality and performance of the individual in a year.

Our policies of partner remuneration take into account a number of factors including quality of work, excellence in client service, growth in revenue and profitability, leadership and living the KPMG Values.

Each partner is required to submit a written appraisal to the Appraising Committee detailing his/her own view of performance against objectives over the previous year. The Appraising Committee specifically considers the contribution of each partner to quality on their engagements. Quality is one of the most important metrics for measuring the performance – and by extension, the reward of partners. The Quality and Performance Matrix is used to assess an individual's performance looks at quality and how it interacts with other factors. The overall rating depends on the interaction of both. We use a quality matrix to collate both objective and subjective evidence of performance. Evidence includes indicators from reviews and inspections, and feedback from the quality process.

Drawings

During the year, partners working within KPMG Limited received monthly drawings and from time to time, additional profit distributions. The level and timing of the additional distributions are decided by the Executive Committee, taking into account cash requirements for operating and investing activities. All such drawings and profit distributions to partners represent payments on account of current year profits and are reclaimable from members until profits have been allocated. Any over-distribution of profits during the year is also recoverable from partners.

14 Network arrangements

14.1 Legal structure

Legal structure

In many parts of the world, regulated businesses (such as audit and legal firms) are required by law to be locally owned and independent. KPMG member firms do not, and cannot, operate as a multinational corporate entity. KPMG member firms are generally locally owned and managed. Each KPMG member firm is responsible for its own obligations and liabilities. KPMG International and other member firms are not responsible for a member firm's obligations or liabilities.

Member firms may consist of more than one separate legal entity. If this is the case, each separate legal entity will be responsible only for its own obligations and liabilities, unless it has expressly agreed otherwise.

Our firm and all other KPMG firms are party to membership and associated documents, the key impact of which is that all KPMG member firms in the KPMG global organisation are members in, or have other legal connections to, KPMG International Limited, an English private company limited by guarantee.

KPMG International Limited acts as the coordinating entity for the overall benefit of the KPMG member firms. It does not provide professional services to clients, directly or indirectly. Professional services to clients are exclusively provided by member firms who remain solely responsible and liable in respect of these services.

KPMG is the registered trademark of KPMG International and is the name by which the member firms are commonly known. The rights of member firms to use the KPMG name and marks are contained within agreements with KPMG International.

Each firm is part of one of three regions (the Americas, ASPAC and EMA). Each region has a Regional Board comprising a regional chairman, regional chief operating officer, representation from any sub-regions, and other members as appropriate. Each Regional Board focuses specifically on the needs of member firms within their region and assists in the implementation of KPMG International's policies and processes within the region.

KPMG International and the KPMG member firms are not a global partnership, single firm, multinational corporation, joint venture, or in a principal or agent relationship or partnership with each other. No member firm has any authority to obligate or bind KPMG International, any of its related entities or any other member firm vis-à-vis third parties, nor does KPMG International or any of its related entities have any such authority to obligate or bind any member firm.

Further detail on the legal and governance arrangements for the KPMG global organization can be found on the About Us page of kpmg.com.

The name of each audit firm that is a member of the organisation and the EU/EEA countries in which each firm is qualified as a statutory auditor or has its registered office, central administration or principal place of business are available in Appendix 3.

14.2 Responsibilities of KPMG firms

Member firms have agreed with KPMG International to comply with KPMG International's policies, including quality standards governing how they operate and how they provide services to clients to compete effectively. This includes being professionally and financially stable, having an ownership, governance and management structure that ensures continuity, stability and long-term success, and being able to comply with policies issued by KPMG International, adopt global strategies, share resources (incoming and outgoing), service multinational clients, manage risk, and deploy global methodologies and tools.

Each KPMG firm takes responsibility for its management and the quality of its work. Member firms commit to a common set of KPMG Values.

A firm's status as a KPMG member firm and its participation in the KPMG global organisation may be terminated if, among other things, it has not complied with the policies set by KPMG International or any of its agreements with KPMG International.

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

14.3 Professional Indemnity Insurance

Insurance cover is maintained in respect of professional negligence claims. The cover provides a territorial coverage on a worldwide basis.

14.4 Governance structure

KPMG International's governance bodies are comprised of the Global Council, the Global Board (including its committees), the Global Management Team and the Global Steering Groups.

Global Council

The Global Council focuses on high-level governance tasks and provides a forum for open discussion and communication among member firms. Among other things, the Global Council elects the Global Chairman and approves the appointment of Global Board members. It includes representation from 52 KPMG member firms.

Global Board

The Global Board is the principal governance and oversight body of KPMG International. The key responsibilities of the Global Board include approving global strategy, protecting and enhancing the KPMG brand and reputation, overseeing the Global Management Team and approving policies with which KPMG firms have agreed to comply. It also approves the admittance or termination of KPMG firms to/from the global organisation.

It is led by the Global Chairman, Bill Thomas, and includes the Chairman of each of the regions (the Americas; Asia Pacific (ASPAC); and Europe, the Middle East, and Africa (EMA) and a number of members who are also member firm Senior Partners.

The list of current Global Board members, is available on the Leadership page of kpmg.com

Global Board committees:

The Global Board is supported in its oversight and governance responsibilities by several committees, including:

- Executive Committee;
- Governance Committee;
- Global Quality and Risk Management Committee; and
- Global Audit Quality Committee.

Each of these committees is comprised of Global Board members and reports directly to the Global Board.

The overarching responsibility of the Global Audit Quality Committee is to strive for consistent audit quality across all firms and to oversee KPMG International activities which relate to improving and maintaining the consistency and quality of audits, assurance engagements and the SoQM management provided by KPMG firms. The Global Head of Audit and the Global Head of Audit Quality (the latter being responsible for oversight of audit quality across the KPMG organization for KPMG International) report on audit quality matters to this committee.

Global Management Team

The Global Board has delegated certain responsibilities to the Global Management Team (GMT). These responsibilities include developing the global strategy by working together with the Executive Committee and jointly recommending the global strategy to the Global Board for its approval. The GMT also supports KPMG firms in their execution of the global strategy and KPMG International policies by member firms. The GMT also oversees the activities of the Global Steering Groups. It is led by the Global Chairman, Bill Thomas.

The list of current GMT members is available on the Leadership page of KPMG.com.

Global Steering Groups

There is a Global Steering Group for each key function and infrastructure area, chaired by the relevant member of the GMT and, together they assist the GMT in discharging its responsibilities. They act under delegated authority from the Global Board and oversight by the GMT.

In particular, the Global Audit Steering Group and Global Quality & Risk Management Steering Group work closely with regional and member firm leadership to:

- Establish, and ensure communication of, appropriate audit, quality and risk management policies;
- Establish and support effective and efficient risk processes to promote audit quality;
- Promote and support strategy implementation in member firms' audit functions, including standards of audit quality; and
- Assess and monitor audit quality issues, including those arising from the SoQM, quality performance and regulatory reviews, and focus on best practices that reduce audit quality findings.
- The roles of the Global Audit Steering Group and the Global Quality & Risk Management Steering Group are detailed in the 'Governance and leadership' section of the KPMG International Transparency Report

©2026 KPMG Limited, a Cyprus limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

15 Statement on the effectiveness of the System of Quality Management of KPMG Limited as of 30 September 2025

As required by the International Auditing and Assurance Standards Board (IAASB)'s, International Standard on Quality Management (ISQM1) and KPMG International Limited Policy, KPMG Limited (the "Firm" and/or "KPMG Cyprus") has responsibility to design, implement and operate a System of Quality Management for audits or reviews of financial statements, or other assurance or related services engagements performed by the Firm. The objectives of the System of Quality Management are to provide the Firm with reasonable assurance that:

a) The Firm and its personnel fulfill their responsibilities in accordance with professional standards and applicable legal and regulatory requirements, and conduct engagements in accordance with such standards and requirements; and

b) Engagement reports issued by the Firm or engagement partners are appropriate in the circumstances.

KPMG Cyprus outlines how its System of Quality Management supports the consistent performance of quality engagements in the 2025 Transparency Report.

Integrated quality monitoring and compliance programs enable KPMG Cyprus to identify and respond to findings and quality deficiencies both in respect of individual engagements and the overall System of Quality Management.

If deficiencies are identified when KPMG Cyprus performs its annual evaluation of the System of Quality Management, KPMG Cyprus evaluates the severity and pervasiveness of the identified deficiencies by investigating the root causes, and by evaluating the effect of the identified deficiencies individually and in the aggregate, on the System of Quality Management, with consideration of remedial actions taken as of the date of the evaluation.

Based on the annual evaluation of the Firm's System of Quality Management as of 30 September 2025, the System of Quality Management provides the Firm with reasonable assurance that the objectives of the System of Quality Management are being achieved.
