

Public Procurement Law

Effective risk management und strategic planning during the pre-phase

[Home](#) > [Services](#) > [Greenfield/Brownfield Investments and Market Entries in Germany](#) > [Public Procurement Law](#)

Greenfield investments present a high level of complexity, with effective risk management and strategic planning serving as critical factors in the early-on decision-making process for the investments.

Your key questions, challenges and objectives

- Obligation to comply with certain procurement law requirements by means of a grant award notice
- At the same time: Grant notices with unclear or ambiguous requirements regarding the applicable public procurement regulations
- Comprehensive documentation requirements and proof of use of funds
- Risk of reclaiming funding in the event of breaches of public procurement law

How we support

- Identification of the applicable procurement law framework
- Advice on the design of the procurement procedure (in particular type of procedure; suitability and award criteria, etc.)
- Preparation of the necessary tender documents including contract documents
- Support with the evaluation of tenders and negotiations
- Legally compliant documentation of the procurement procedures, in particular against the background of funding law
- Provision of a procurement platform for the implementation of procurement procedures; technical handling of procurement procedures
