# EU Public CbyC Reporting – Overview (1/2)

01

## What is the status?

EU Member States had until June 22, 2023 to transpose the EU Public Country-by-Country (CbyC) Reporting Directive (Directive) into national law. Individual Member States could choose to implement the rules at an earlier date.

### Relationship with other CbyC reporting initiatives

The initiative is similar to the non-public CbyC reporting, but differs in some important respects. It also builds on earlier EU public CbyC reporting initiatives, i.e., those applying to the extractive sector and to the financial sector (CRD IV).

### First reporting year

The rules will apply 12 months after the transposition deadline, i.e. at the latest from the commencement date of the first financial year starting on or after June 22, 2024.

For calendar year taxpayers, the first reportable year will be 2025, with the report due by the end of 2026. However, Member States may set shorter reporting deadlines.

02

## What triggers a reporting obligation?

A reporting obligation will arise for multinational groups with a consolidated net turnover of at least EUR750 million in each of the last two consecutive financial years, if the group's ultimate parent undertaking is either:

- Based in the EU, or
- Based in a third-country and operates in the EU through a qualifying subsidiary or branch<sup>1</sup>.

The disclosure obligation will also apply to EU entities that are not part of a group (i.e. standalone undertakings) that meet the size threshold and have a taxable presence from a corporate income tax perspective in at least two Member States.

<sup>1</sup>A qualifying EU presence includes:

- Medium-sized or large subsidiaries that meet two of the following three conditions:
  - i) balance sheet > EUR 5 million, ii) net turnover > EUR 10 million, or iii) average number of employees > 50
- For branches only the net turnover is relevant.

Note that the thresholds may vary by Member State. Lower thresholds generally apply for 2023.

# EU Public CbyC Reporting – Overview (2/2)

03

## Who has to report?

### EU-headquartered groups

The disclosure obligation lies with the EU parent. Reports must be filed in publicly accessible commercial registers in the relevant Member State as well as on applicable group websites (unless Member States opted for the publication exemption option described in the next slides).

### Non-EU headquartered groups

The main rule is that each of the qualifying EU subsidiaries or EU branches is required to disclose information for the in-scope group.

There is one exception to this rule, whereby the EU subsidiaries and branches of the non-EU headquartered group are exempt from their obligations if the non-EU parent has published the report on their website and has assigned one of the EU subsidiaries or branches to file the report with their national commercial registry.

04

## What should be reported?

The report should cover specified data for the whole group. The data should be provided on the following **basis**:

- separately for each Member State;
- separately for each jurisdiction included on the EU list of non-cooperative jurisdiction or on the 'grey list' for two consecutive years
- aggregated for the rest of the world.

The **data** should consist of:

- brief description of the nature of the activities;
- number of full time equivalent employees;
- net turnover, including turnover with related parties;
- profit/loss before income tax;
- income tax accrued (current year);
- income tax paid (cash basis);
- accumulated earnings.
