

# KPMG Digital Gateway Deal Connect

An integrated global platform to facilitate the end-to-end lifecycle of a deal or project

**Organizations face an increasingly complex tax and business landscape. In this environment, technology and innovation can make the difference in keeping track of projects and deals, as well as providing insights and determining where added value lies in terms of efficiency, minimizing risks and observing market trends.**

KPMG Digital Gateway Deal Connect is an application developed and built by KPMG and integrated with and operating within KPMG Digital Gateway, hosted on KPMG's Tax Cloud and powered by Microsoft Azure. KPMG Deal Connect is an enabler to support client engagements and facilitates the end-to-end lifecycle of a deal or project. It also facilitates the preliminary exploration phase of a deal or project and allows for collaboration between a client and its advisor(s) while tracking the different elements of a deal or project once it moves forward.

**A technology-enabled platform to track the different elements of a deal or project**

## Potential benefits

KPMG Digital Gateway Deal Connect provides a customized experience where only the relevant elements are created for a deal or project. Built-in data and analytics provide valuable insights on what drives deals and projects. Because of its connectivity with several other KPMG Digital Gateway modules, KPMG Deal Connect helps ensure the connection between different KPMG service lines when involved in a particular deal or project. It can help increase efficiency in managing these deals/projects overall and has its own document storage and security system. In addition, multiple functionalities are built in to accommodate absorbing historic deals or projects.

### Collaboration

Helps KPMG clients and engagement teams collaborate throughout the deal lifecycle.

### Customization

Presents a tailored selection of deal or project elements, giving an enhanced customized user experience.

### Tracking and review

Provides detailed insights on the status of relevant deal or project element(s).

### Data-driven insights

Features built-in data and analytics on what drives deals and projects.

### Document storage

Offers document storage in a dedicated library environment, helping to ensure easy access to files.

### Security

Delivers a secure environment for KPMG clients and engagement teams to share deal/project documents and also provides additional security layers for confidential deals/projects and/or confidential documents.
